RUSSIA'S TRADE SUFFERS.

Trade of leading Black Sea ports with the far East by sea is temporarily abandoned altogother by Russian lines. So far as the trade with Vladivostok, Shanghai and Singapore is concerned, the Russian volunteer fleet, the leading subsidized shipped of Russia, is in still worse plight. The steamer Ekaterinoslav of over ten thousand tons has been captured by the Japanese; the Kazan is shut up in Port Arthur and no fewer than twelve more cruisers and transports, inshut up in Port Arthur and no rower than twelve more cruisers and transports, including ships of twelve thousand tons and twenty knots speed, are lying in Russian home ports with scores of officers and hundreds of men waiting orders. The Russian tea trade with the far East was her only foreign shipping trade of any magnitude, and the present paralysis is a severe blow.

Japanese Look Upon King Edward's Visit to Germany ,

(Special London Times Cable to The Times-Dispatch, Copyright 1904.)

TOKIO, June 11.—Japanese publicists are inclined to regard King Edward's coming visit to Germany as politically important in view of the ability and activity the British ruler has hitherto shown in dealing with international relations.

The prospects for a second Japanese loan are very good. It is expected that the subscriptions will exceed those for the former loan by a large amount.

The Russian operations in Northeastern Korea are denounced in Japan as a wanton raid, devoid of all military importance, and merely injurious to the peacerul Koreans, Such doings are classed by the Japanese with the sinking of small merchantmen by the Rissian squadrons.

ST. PETERBURG. June 10, 4:14 P.

M.—There is reason to believe that the
plans for the departure of the Port
Arthur squadron in the event that the
fall of the fortress becomes imminent
have been completed. They involve the
co-operation of the Vladivostok squadron.

After the blockading fleet has been
engaged the uninjured Russian ships
will effect a juncture with the Vladivostok squadron and make their way to
Vladivostok. The fact that the Korea
Sirsits are mined and guarded by a
Japanese torpedo bout flotilla, which has
been established to the satisfaction of
the admiralty increases the difficulty of
the operation, but the Russians probably
will prefer to take chances of getting
through rather than of making a 2,000
mile journey around Japan. The attempt
may occur at the first favorable opportunity.

The Senatorial Fight.

The Senatorial Fight.

Then there is the senatorship. It was fnore talked than the centest for the governorship. The candidate for the Senate to succeed Senator Martin, and the candidate for the Executive Mansion to succeed Governor Montague, will be chosen in the same primary election, according to the plan adopted by the convention yesterday. The contest will be the hottest in the history of party fights in the State. There is no doubt of the fact that Governor Montague will be a candidate, from recent information, and there is no doubt that he proposes to go upon the stump and make a canvass of the State. He is not surpassed as a stumper by any man in Virginia. Senator Martin, on the other hand, has greatly increased in popularity since he entered the Senate. It is admitted that he has recently increased his strength in Virginia. He has made a fine record in the Senato by reason of his devotion to the cause of his constituents. He has friends in overy county of the State. And they are invariably friends who cannot be led off by blandishments or any other form of seduction.

of seduction.

The convention has directed attention afresh to the great contests which are to he decided next year. The friends of Senator Martin controlled the convention. It is asserted by those who made close calculations as to the complexion of the convention, that eighty per cent. of the delegates were friendly to him. Yet, and this fact is universally commented on, the dominant faction were as mederate in the exercise of their power as could be desired. Daniel, Martin, Firaxton and Montague were elected to the National Convention as the delegates at large from Virginia.

TELL-TALE FIGURES.

Politicians Find Vote Sheets of Richmond Delegation Interesting
The vote in the Richmond delegation as between Colonel John S. Harwood and Mr. Clyde W. Saunders, for member of the State Democratic Committee, Thursday morning, was recorded by Secretary Nelson, and shows the division of the committeemen as between the two with fair accuracy. The division was known to the members of the delegation with approximate certainty, even before the test vote on the Puller resolution, and, in fact, the day after the delegates were chosen, two weeks ago, it was known how they stood as to their choice for committeemen. Mr. Saunders and his friends claimed at that time forty-three or four of the skxty-one delegates, and the claim was perhaps well founded at that time. With one absent and not represented, Mr. Saunders received twenty-nine votes to twenty-eight for Colonel Harwood, thus leaving four either not voting or voting for both. The difference between the claims of Mr. Saunders and his friends and the vote actually recorded is probably attributable to the tremedous pressure brought to bear on many of the delegates to induce them to eppose Mr. Saunders. There were many rumors of such efforts to influence the delegates to desert the yung Clay Ward man, but how well founded they are cannot be stated with certainty.

The recorded yets besides proving of Richmond Delegation Interesting

Is a Bold Fighter, Is a Bold Fighter.

The recorded vote besides proving of interest, shows that representative citizens from all the wards voted for Mr. Saunders, as well as for Colonel Harwood. They were all elected in a primary, and it was the priviege of the voter to ascertain the preference of the candidate for delegate before voting, if he so desired. Few men would have concealed their preference. It the opponents of Mr. Saunders did not know they were voting for him, his friends contend that this was not Mr. Saunders's fault, for even his opponents admit that he is a bold, aggressive fighter, and makes no concealment of his attitude. His friends ran for delegates in several precincts, and in every instance defeated the Parker Club every instance defeated the Parker Club nominees, who were believed to be hos-tile to him. NEW YORK, June 10.—R. G. Dun and Company's weekly review of trade tomorrow will say:

Current trade conditions are without change and collections continue slow as a rule, but there is growing confidence in the future, dealers exhibiting an inclination to prepare for fall and winter on a large scale. There is still much complaint that the weather is unseasonable for retail distribution, and payments are not prompt. Reports regarding the building trades are most uniformly favorable, stuctural work increasing as the season advances, and transporting prospects are brighter on the lakes. Rallway earnings, now practically complete for April, show a joss of 2.9 per cent, compared with last year and surpass the corresponding month of any proceding year.
